5th Course

Mini-Open Approaches in Spine Surgery

July 7th - 8th
2011

Venue:
Clinic for Spinal Surgery
Schön Clinic Hamburg-Eilbek

Welcome

Dear colleague,

Over the last few years the distinction between access and target surgery has become more relevant in the field of spine surgery.
Meanwhile literature too indicates that the strength/importance of miniaturized access is not primarily determined by its surgical challenge.
At least the results of conventional procedures should be obtained with less traumatizing approaches. Furthermore the postoperative need for analgetics should be reduced.
My colleagues and I look forward to discussing possibilities and limitations of "mini-open" procedures with you in a small circle.

With kind regards
Prof. Dr. med. Luca Papavero
Chairman
Clinic for Spinal Surgery

Agenda

Thursday, 07.07.2011

Until 02:30 pm
Arrival & Welcome

02:30 - 06:30 pm
Introduction: What's about Mini-Open?

Mini-Open 1
- lumbar intra- and translaminar

Mini-Open 2
- lumbar extraforaminal

Mini-Open 3
- cervical

Lumbar spinal stenosis:
- decompression by cross-over-technique

Case reports and discussion

07:30 pm Dinner

Friday, 08.07.2011

08:00 am - 04:00 pm
OR-Hospitation

04:00 pm Farewell

Registration

☐ Yes, I would like to participate. Please make a hotel reservation for me:

Arrival | Departure

Name / Address | Birthday

Phone / E-Mail

Date / Signature

My registration is binding. In case of cancellation after the closing date, all occurred costs, if any, have to be borne.

☐ No, please send information about further workshops.

Please send your confirmation to the adjoining address or fax.

Closing date: June 10th, 2011!
