Medicon Courses provide a valuable and focused education related to clinical practice presented by experts of the respective discipline.

Medicon Courses are characterized by:

- Small groups, about 5 – 10 participants
- No video transmission, the participants are directly at the operating table. This guarantees the ability to talk to the experts directly
- Accreditation of the State Chamber of Medicine in Germany
- Comprehensive programme featuring surgical approach, operating technique, surgical planning process as well as organization and the efficient input of resources and technique
- Establishing networks
- Clinical discussion of current surgical cases
- Support by Medicon employees
