**3<sup>rd</sup> Course:**  
**Rhinoplasty in**  
**Cleft Lip-Nose Deformity**

**DEADLINE:** February 28, 2019

in Cooperation with:  
Dental Hospital Mahidol University,  
Department of Oral & Maxillofacial Surgery,  
Bangkok, Thailand

Dear colleagues,

It is always the challenge for the maxillofacial or plastic surgeons to correct the stigmata “the cleft lip-nose deformity” on the cleft lip and cleft lip & palate patients. In this course, we would like to share and exchange our surgical techniques in cleft-rhinoplasty that we have performed in our hospital for 10 years, such as open rhinoplasty technique, harvesting of ear and septal cartilages, various types of cartilage grafts, harvesting of deep temporal fascia, and nasal dorsal augmentation either with silicone or diced cartilage. This 2 day-course will offer both 2 types, unilateral and bilateral cleft lip-nose correction.

Both young new and experienced surgeons in this cleft-rhinoplasty field would be warmly welcomed in friendly Thai atmosphere. We are looking forward for our meeting here in Bangkok.

With best regards,

Assistant Professor  
Dr. Kiatanant Boonsiriseth, MD, DDS  
Course Director  
Director of Residency Training program in Oral & Maxillofacial Surgery  
Head of the department of Oral & Maxillofacial Surgery

Assistant Professor  
Dr. Sirichai Kiattavorncharoen, MD, DDS, Dr. med  
Director of Maha Chakri Sirindhorn Dental Hospital

## Thursday - April 25, 2019

- » 08.00-09.00 am Case 1 (unilateral cleft lip-nose deformity) Case presentation, preoperative planning & discussion
- » 09.15-02.00 pm Live Surgery Case 1
- » 03.00-05.00 pm Lecture & discussion
- » 06.30 pm Dinner

## Friday - April 26, 2019

- » 08.00-09.00 am Case 2 (bilateral cleft lip-nose deformity) Case presentation, preoperative planning & discussion
- » 09.15-02.00 pm Live Surgery Case 2
- » 03.00-04.00 pm Discussion
- » 04.30-05.00 pm Certification

Live surgery includes operative techniques of followings:

- » Septoplasty
- » Harvesting of concha cartilage
- » Harvesting of deep temporal fascia
- » Open rhinoplasty with various cartilaginous grafts
- » Dorsal augmentation with DCDF (diced cartilage wrapped in deep temporal fascia) or silicone

The program might be subject to change due to the actual clinical situation.
